PROFILE

Procurement engineer with 4+ years of experience in international procurement for customers in oil & gas, construction and energy, and a degree in electrical engineering.

EXPERIENCE

Procurement Engineer

08/2022 — 10/2026

"Wepadar Dostlar" Individual Enterprise · Ashgabat, Turkmenistan

- Procurement and import of pipes, pumps, electrical equipment, building materials, industrial equipment and automotive spare parts from 35+ suppliers in China, the UAE and Türkiye: RFQs, comparison of offers, negotiation of price, lead time and Incoterms.
- Replaced a pipe supplier with a new source in China, cutting delivery time by about one month.
- Found a direct distributor of truck-crane engines in the UAE, lowering the purchase price by about 20% by removing intermediaries.
- Prepared commercial and technical proposals for tenders.
- Prepared shipping documents, coordinated with customs brokers and tracked shipments through border clearance.
- Monitored delivery and quality, handled supplier claims.

Electrical Design Intern

01/2022 — 06/2022

"Kuwwatly Energiya Hyzmat" Economic Society · Ashgabat, Turkmenistan

- Layout drawings for electrical equipment, sockets, lighting and cable routes of industrial buildings in AutoCAD.
- Prepared specifications of equipment and materials.
